ENERGY SERVICES & TECHNOLOGY CORP.

## MPD Engineering Services

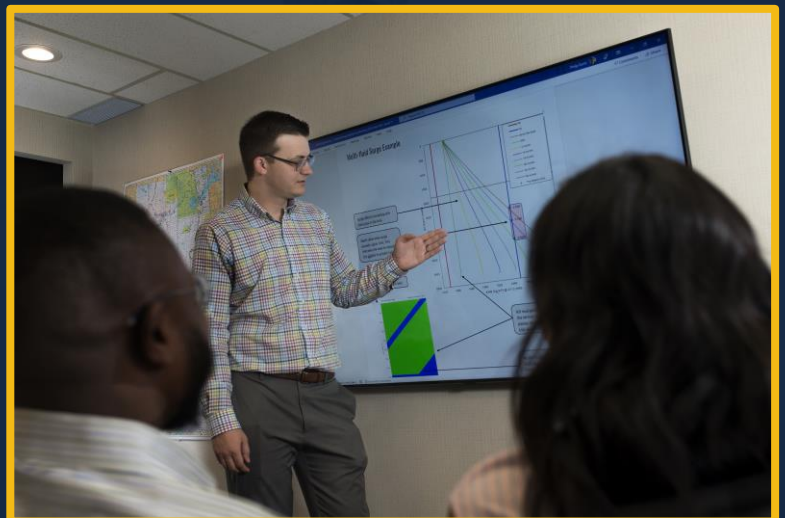

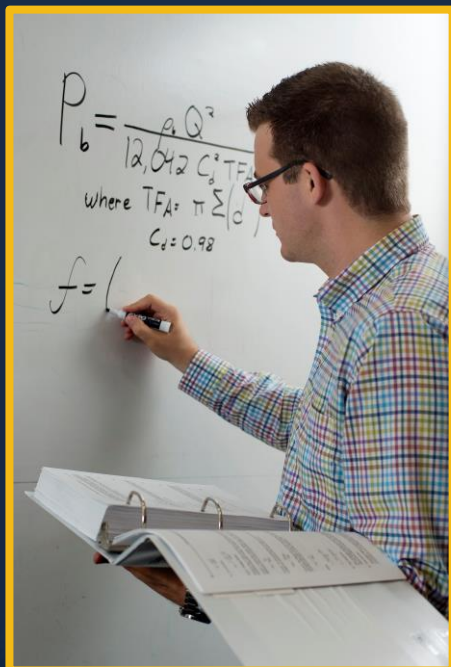

# B.E.S.T. MPD Engineering Services

Beyond prides itself in offering the best in class MPD products, on-site MPD supervision, and MPD Engineering. As part of the MPD portfolio of products, Beyond provides MPD technical support and Engineering with an experienced team of Engineers. They provide the customer with all their needs in well design and operations monitoring services using state-of-the-art, in-house developed software, which is included with the NITRO MPD™ package.

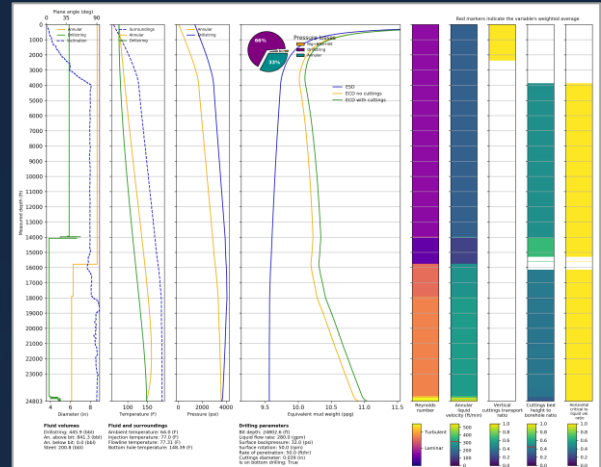

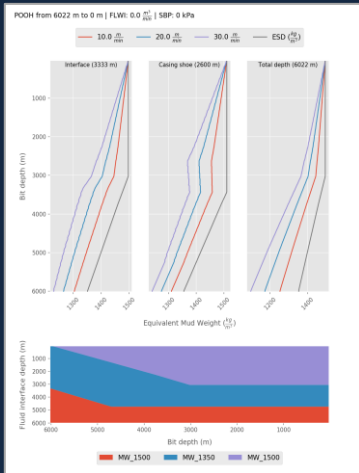

## MPD Engineering Services

- MPD feasibility analysis
- MPD programs
- Equivalent circulating and static density analysis
- Swab and surge analyses
- Mud rollover and cementing schedules in MPD mode
- Mud density and Rheology overview
- End of well reports
- Real-time operations monitoring and support or on-site Engineering

# MPD Engineering Experience

- Very narrow window operations
- Horizontal drilling in different pressure profile zones
- Flow drilling and multiphase operations
- Drilling optimization (ROP optimization, pressure-related events mitigation, etc.)
- HPHT operations in deep-wells (depth > 20,000' or 6,000m)
- Cementing in MPD mode

# We do Managed Pressure Drilling.
